LEROY D. BACA, SHERIFF

June 14, 2005

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

**REVISED PROJECT BUDGET AND RELATED ACTIONS FOR
SB 989 UNDERGROUND FUEL STORAGE TANK MODIFICATION PROJECT
(ALL DISTRICTS) (3 VOTES)**

**JOINT RECOMMENDATION WITH THE CHIEF ADMINISTRATIVE OFFICER THAT
YOUR BOARD:**

1. Approve the enclosed appropriation adjustment, which transfers \$2,052,000 from various Sheriff Water Clarifier Projects to the Senate Bill 989 Underground Fuel Storage Tank Modification Project, Capital Project No. 86617, to fully fund project costs.
2. Approve the revised project budget of \$3,052,000 for the Senate Bill 989 Underground Fuel Storage Tank Modification Project, Capital Project No. 86617.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the recommendations will transfer sufficient funding to complete repair and/or modifications to underground storage tanks (UST) at various Sheriff's vehicle fueling facilities. These improvements are required to comply with Senate Bill 989 (SB 989) regulations.

A Tradition of Service

On February 3, 2004, your Board authorized the Department of Public Works (DPW) to supplement its existing as-needed underground storage tank certification program in order to provide testing of approximately 75 underground storage tanks operated by the Sheriff's Department. This was to ensure compliance with State law regarding testing of UST walls, piping, and pump connections for leakage, as enacted under SB 989. DPW's consultant, Redwine-Manley Testing Services, Inc., determined that 27 underground storage tanks located at various facilities required repair and/or modification to achieve compliance and avoid tank closures and/or fines by the State of California.

The original budget for the UST Modification Project was estimated at \$1million. To address the necessary UST repairs and/or modifications, the Sheriff's Department contracted with the Internal Services Department (ISD) to perform the work through its Job Order Contracting (JOC) program. ISD has expended \$998,000 to address 7 of the 27 UST facilities. ISD estimates that an additional \$1,916,000 is needed to complete the remaining 20 UST facilities.

In 2002 your Board allocated \$2.4 million in the Capital Project Budget under various Water Clarifier capital projects to install new water clarifier systems at various Sheriff's facilities to environmentally control run off water due to car washing. A site feasibility study and needs assessment was completed in November 2003, which reported that the existing systems were in compliance and upgrades were not necessary. DPW, the County's jurisdictional agency that monitors storm drain and run off water quality, has confirmed that no further retrofit or replacement is required. To date, \$348,000 was expended to perform the assessment, prepare the feasibility study, and perform minor modifications; thus, leaving an available balance of \$2,052,000.

Approval of the enclosed appropriation adjustment will transfer the Water Clarifier Project balance to supplement the UST Modification Project in order to complete the additional repairs and/or modifications to the remaining 20 UST facilities. This project supplement will revise the UST Modification Project's total budget from \$1 million to \$3,052,000.

Upon your Board's approval of the recommendations, the Sheriff's Department will authorize ISD to complete the modifications to the remaining 20 UST facilities. The work is scheduled to be complete by May 10, 2006 (See Enclosure A).

Implementation of Strategic Plan Goals

The recommended actions meet the County's Strategic Plan Goals of Service Excellence and Fiscal Responsibility since the transfer of remaining funds into the UST Modification Project will facilitate completing the improvements necessary to comply with State regulations.

FISCAL IMPACT/FINANCING

ISD estimates that the repairs for the remaining 20 UST facilities will cost \$1,916,000. An additional \$136,000 will be available to address unforeseen conditions during construction; revising the total project cost of the project to \$3,052,000. Approval of the enclosed appropriation adjustment will transfer \$2,052,000 in funds currently appropriated in the 2004-05 Capital Project Budget under various Sheriff's Department Water Clarifier Projects to the UST Modification Project under Capital Projects No. 86617 (Enclosure B).

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Sheriff's Department has received confirmation from DPW, the County's jurisdictional agency that monitors storm drain and run off water quality, that no further retrofit or replacement is required for the water clarifiers.

On November 1, 2004, two work orders were issued by ISD to JOC contractors MTM Construction, Inc. and Athena Engineering, Inc., to perform the recommended repairs and/or modifications for 7 of the 27 UST facilities.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

There will be no impact on current services as a result of the recommendations.

ENVIRONMENTAL DOCUMENTATION

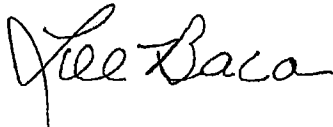

The recommended actions will not have an effect on the environment.

The Honorable Board of Supervisors
